

*All, together, on the journey to build knowledge and understanding of Prader-Willi syndrome (PWS) and working to develop centres of excellence across the world that support and treat people with PWS. Is your country represented?
Join the IPWSO Leadership ECHO!*

IPWSO's mission in collaborating with the Project ECHO® initiative is to unite the Prader-Willi syndrome (PWS) global community, to move knowledge, and to reach underserved populations. Collectively we can find solutions to the challenges of the syndrome and support and advocate for the needs of people with PWS, their families, PWS Associations and professionals who work with people with PWS.

The IPWSO Project ECHO® educational programmes currently include a Leadership, a Health and an SPW Latino American ECHO. These are designed to build capacity and expertise in PWS using the ECHO Model™ and an "all teach, all learn" approach.

NEW IPWSO LEADERSHIP ECHO

Starts Tuesday, 1 December 2020 – 9.00am (London, UK Time)

An online educational programme helping to build a global PWS community.
