FOUNDATION AUSTRALIA**

# Challenge: Improving clinical trial participation

Diane Webster (PhD), Research Director

Skyla, 2

Tom, 7

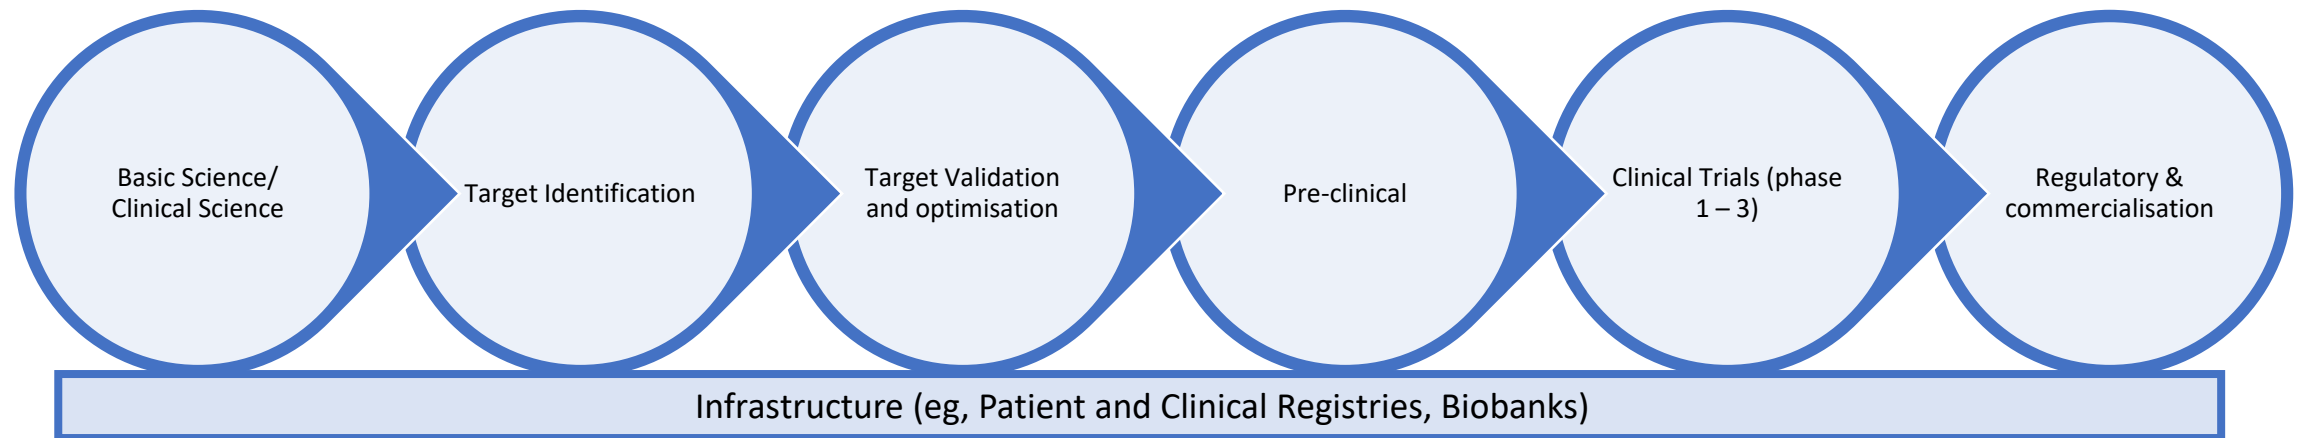

Mitchell, 9

Olivia, 11

# Developing PWS therapies

# PWS Clinical Trials

Number of participants: 5 – 15

30 – 40

120 - 150

Regulatory approval &  
reimbursement

## The Challenge:

How can we accelerate the development of new drugs for PWS by improving enrolment in clinical trials?

## Discussion Starters:

- Reaching more of our community
  - getting in touch with the families who are not on our mailing lists?
- What's not working – and how might we address these barriers?
  - including language barrier (HC-QT often needs to be completed in English)
- What is working (facilitators)?
- Matchmaking – how do we find the right trials for interested participants?

# Prader Willi Research Foundation Australia

*Our vision is to improve clinical outcomes and deliver better treatments for people living with PWS*
