

Workshop on Aging – Caregivers Conference, Berlin 2024

Goals of Participants:

- 1. To bring to each participant the knowledge of areas of aging in the PWS community that require caregiver support**
- 2. To give to each participant tools for dealing with people with PWS who have reached ages in which there is decline**
- 3. To provide each participant with understanding the varying needs of this population, as they continue to age**
- 4. To open up discussions in order to generate brainstorming of ideas and activities that will positively impact the aging people with PWS**

Methods of Implementation:

Presentations by the Workshop Presenters

Open discussion on each area of aging of people with PWS

Brainstorming ideas for implementing programs needed for aging populations in every program the Caregivers work in

Open discussion if there are areas not covered in the workshop plan

Evaluation:
